The South Carolina Progressive Network is a coalition of individuals who have joined forces to work for social, racial, economic and environmental justice in South Carolina. The Network is a multi-issue, multiracial, nonprofit corporation created to strengthen progressive alliances, to promote voter education and participation, and to support grassroots groups and projects across the state. The Network has a political action committee, SC ProVote, that provides assistance to progressive candidates.

**Mission Statement:** The purpose of the South Carolina Progressive Network is to build a statewide progressive movement with the power to implement our values of social justice, environmental stewardship and equality.
